<sup>1</sup>Outcomes Development: In consultation with the CWSP, departments produce written statements of outcomes for students' achievement in writing and speaking. These statements become the guiding texts for implementation and assessment.

<sup>2</sup>Implementation Plan: CWSP provides support for the articulation of implementation plans for each department; these may involve simultaneous assessment projects to define areas for development. CWSP supports faculty and curricular development to achieve the defined outcomes.

<sup>3</sup>Assessment Plan: CWSP provides support for the department- and college-specific assessment of writing and speaking outcomes. This may involve both formative and summative models of assessment.
